**FOR IMMEDIATE RELEASE**

**eMalahleni Private Hospital Statement on Defamatory Broadcast by eMalahleni FM**

eMalahleni Private Hospital is compelled to address the public regarding a defamatory broadcast by eMalahleni FM on 22nd January 2025. During the broadcast, baseless allegations and falsehoods were disseminated against our institution by a self-proclaimed community leader.

We are deeply concerned that eMalahleni FM failed to contact our institution to verify the allegations or provide a balanced perspective. This reckless and irresponsible action has resulted in significant reputational damage to our institution and, more alarmingly, has risked the lives of our patients, workers, and doctors.

As a healthcare institution, we prioritize the safety and well-being of all individuals who enter our premises. We take exception to any actions that compromise this duty and place an undue burden on our staff and resources.

We demand a formal apology and retraction of the defamatory statements from eMalahleni FM. We also expect the station to commit to adhering to ethical journalistic standards in the future.

We appreciate the public's understanding and support during this challenging time. We remain committed to providing quality healthcare services to our community.
